

PET Jar – 1000 ml – Gripper

Description

Benefits of PET Containers

- Manufactured in Food Grade, clear plastic PET (Polyethylene terephthalate)
- Exceptional transparency ensuring the product inside the jar can be seen in high definition
- Superior strength and quality
- Impact resistance, minimising damage during use or transport
- Made using injection moulding, the neck has a smooth finish, eliminating sharp edges

Further information:

1. 63mm shaker style caps are come in Black
2. Induction Heat Seal caps offer tamper evident foil seal on top of the jar, following an induction process after packing.

Date Created

January 1, 1970
